**Re: Our Private Labeling Partnership**

I am writing to thank you for manufacturing our private label disinfectant wipes. The set up process was "painless", our labels look fantastic, and your supportive staff members were both informative and very professional.

We greatly appreciate your helping us with the EPA requirements to sub-register the product.

I would also like to thank you for the quick turn around and timely shipments on our purchase order. The entire experience was turn key, as promised, opening new doors in our sales efforts.

Best Regards,

Ted Barsh
